Profile

Full-stack & mobile software engineer with 5+ years designing and shipping real products — enterprise web applications, native iOS/Android apps, and the AI and automation that make them useful. Comfortable from backend architecture to App Store release, with a focus on performance, clean architecture and maintainability.

Experience

Private Company — **France**
Software Engineer — *2026 – Present*

- Full-stack development of web applications and internal services.
- Design and integration of REST APIs and business modules; focus on reliability, performance and maintainability.

La Voie Express — **Casablanca, Morocco**
Full-Stack Software Engineer — *Jul 2025 – 2026*

- Modernized a legacy ERP, migrating from PowerBuilder to Angular/Flask then Angular/Spring Boot.
- Built performant REST APIs with Laravel (PHP) and Flask (Python) over existing MySQL and SQL Server databases.
- Developed real-time operational dashboards (tracking, logistics, billing automation) with React and Vue.js.
- Containerized internal tools (VexToolbox, VexBalance) with Docker/Kubernetes, Nginx and Gunicorn; secured apps with JWT and OAuth / Sanctum.

Société Royale d'Encouragement du Cheval (SOREC) — **Rabat, Morocco**
Spring Boot Developer — Final Internship — *Feb 2024 – Jul 2024*

- Built a vehicle fleet-management application in Java / Spring Boot.
- Designed secure REST APIs with JWT and data access via JPA; Angular & Thymeleaf frontend; deployment with Docker.

Centre Hospitalier Provincial — Hassani — **Nador, Morocco**
PHP / Symfony Developer — Internship — *Jun 2022 – Aug 2022*

- Developed a patient-records management system with Symfony and MySQL (Doctrine ORM); responsive UI in HTML5 / Bootstrap.

MARSA MAROC — **Nador, Morocco**
Junior Java Developer — Internship — *Feb 2021 – Apr 2021*

- Refactored internal modules with Spring Framework, automated recurring tasks, and wrote JUnit tests.

Selected Projects

Miqat AI (2026) — Published iOS/Android Fajr-alarm app; the alarm dismisses only after an on-device AI scan. React Native/Expo, Supabase, native AlarmKit, widgets, RevenueCat. (App Store)
Miqat OS (2026) — Internal content-ops platform with a creator CRM, compensation engine and cost-per-view analytics. Angular 18 + Flask + MySQL, Dockerized.
Wardak (2026) — Native iOS app on Family Controls / Screen Time: Quran reading unlocks a shared app-usage pool. Swift/SwiftUI, three system extensions, RevenueCat.
Sahsah (2026) — Native SwiftUI wake-up app: mission-based waking, token design system, template-driven onboarding.
Lead Finder (2026) — Python anti-detection scraper over a 1M+ company dataset with DNS email scoring, Gmail outreach and a Dockerized Streamlit dashboard.
Tadartino (2022) — Full MERN real-estate platform (MongoDB/Express/React/Node), deployed on AWS. (tadartino.ma)
OXEMT (2023) — Website for an Oxford school-support center: marketing site, member area, online registration. (oxemt.org)
Open source: Ozo — Python algorithmic-trading library; Inventory Management — Spring Boot + PostgreSQL.

Education

Università di Corsica Pasquale Paoli — **Corte, France**
Master's in Web & Mobile Development — *2026 – 2028 (in progress)*

Private University of Fez — **Morocco**
State Engineer in Computer Science — *2025*

Skills

Backend & APIs: PHP (Laravel, Symfony), Java (Spring Boot), Python (Flask), REST/SOAP, JWT, OAuth 2.0 | **Frontend:** React, React Native, Angular, SwiftUI, Vue.js, Tailwind, Bootstrap | **Mobile:** Native iOS (SwiftUI), React Native / Expo, Screen Time / Family Controls | **AI / ML:** Apple Vision, Google ML Kit (on-device) | **Databases:** MySQL, SQL Server, PostgreSQL, MongoDB, Supabase | **Cloud & DevOps:** Docker, Kubernetes, Nginx, Jenkins, AWS, Git, Bash | **Methodologies:** Agile — Scrum, Kanban, CI/CD

Languages & Awards

Languages: Arabic (native), French (fluent), English (fluent), Spanish (intermediate). **Awards:** Excellence Trophy — COP28 Dubai (2023); 2nd Prize — Green Startups Bootcamp (2023); 3rd Prize — UPF National Robotics Competition (2023).
